Rainbow Gulf Solution LLC (RGS) established in 2005 in the UAE with a leading and futuristic vision, we had a major goal to reach to the maximum satisfaction to our esteemed client all over the region. RGS has been providing IT Technical solution to business organizations. We take pride in working to understand. RGS Provide efficient and complete infrastructure solution for the companies, who concern their threat protection and people safety, needed a strong business oriented philosophy, providing protection, safety and security solutions to our customer and gained the reputation in the region by offering high quality products and services. The driving force behind our success has been our commitment to establish long term partnership with our customers. We know that "it's easy to sell to customer but difficult to sustain them". Innovation service and superior reliability are few of the many attributes that we hold as a company
