

Webanywhere - e-learning Experts

ORCHARD HOUSE AIRE VALLEY BUSINESS CENTRE LAWKHOLME LANE
KEIGHLEY BD21 3
United Kingdom

Since 2005, the company has been an official Moodle Partner – one of only a handful in the United Kingdom. Now we are the largest Moodle partner in Europe. Schools can choose individual products or opt for a package, depending on their budget. Four packages are available – each includes base products, which can then be supplemented by bolt-ons of a school's choice. ProductsKey products available for schools include: Schoolanywhere Moodle ServicesMoodle is the most popular learning management system (LMS) for schools worldwide. Schoolanywhere (a division of Webanywhere Ltd) is a leading company in customising and developing the Moodle learning platform to meet the individual needs of schools. Learnanywhere Elementary LMSLearnanywhere is a primary school learning platform designed specifically for Key Stage 1 and Key Stage 2 pupils. It allows lesson planning, collaboration, parental involvement, resource-sharing and pupil reward. School Jotter CMSSchool Jotter is a specialist school web design package that allows schools to manage their site through a Content Management System (CMS). An extensive range of add-on modules facilitates e-learning. Learner JourneyThis system for student e-portfolios also offers a secure social network for schools. Students can collaborate on and complete work online. Teachers can record and cross-reference assessment data. TotaraFor businesses we use Moodle or Totara. Totara is based on Moodle but has some additional functions which are specifically designed for business needs. Whether school or business, get in touch with us now to find out more about the solution best for your situation!
