At IAE, we specialise in insurance protection products only. We help to provide individuals and families with the coverage they need for today, tomorrow,... and always. IAE has a wealth of experience working with regional and worldwide well-known insurance providers. We provide life insurance in Dubai, critical illness and total permanent disability in many different ways. This gives peace of mind in the event of a death so your loved ones are provided for, or if a serious illness or disability were to happen.
